Executive Summary

- Fully Insured Medical Renewal The renewal was received from Blue Cross Blue Shield of Texas at a 19.3% (\$121,262) increase over current rates.
 - The increase is largely because of the High-Cost Claimant # 1. HCC #1 is a child dependent with End Stage Renal Disease with claims totaling \$319,153 through December 2023.
 - HCC #1 accounts for 40% of the total paid claims (\$793,575).
 - The RX claims (for HCC #2 #5) account for 24% (\$191,768) of the total paid claims.
 - The top Rx Drugs are biologics that treat Rheumatoid Arthritis, Psoriasis, Crohn's Disease, and Ulcerative Colitis.
 - The Rx Drugs are Skyrizi, Simponi, and Enbrel for a total of \$187,727, which is 80% of all Rx spend through December 2023.
 - For companies that are the same size as MVPD, the expected claims over \$50,000 is 3. However, MVPD has 5 claims over \$50,000.
 - MVPD is currently running at a 163.7% loss ratio with total paid claims of \$793,575 and premiums paid of \$484,726 through December 2023.
 - When excluding the claims from HCC #1, the MVPD plan is running at 97.9% loss ratio (\$474,422 in claims vs \$484,726 in premium). Of the \$474,422 in claims, 40% are due to the Specialty Rx Drugs mentioned above.
 - At a loss ratio of 163.7%, the carrier is losing money. Standardly, we would want MVPD running in the 80% loss ratio range.
 - After numerous negotiations with BCBS, Alliant was able to lower the renewal to 11.6% (\$73,012) above current rates. This renewal reduction is contingent on MVPD renewing the Dental with BCBS for the 2024-2025 plan year.

Analyzing insurers' over-all performance and financial strength is a task that requires specialized skills and in-depth technical understanding of all aspects of insurance company finances and operations. Insurance brokerages such as Alliant typically rely upon rating agencies for this type of market analysis. A.M. Best has been an industry leader in this area for many decades, utilizing a combination of quantitative and qualitative analysis of the information available in formulating their ratings.

*Alliant's standard protocol is to only place coverage with carriers with no less than an "A-"- rating from A.M. Best. However, where Alliant determines that it is prudent to consider coverage with a lower rated carrier, the financial rating of the carrier is to be disclosed to the client. Should Alliant becomes aware of a carrier's rating dropping below "A-" mid-policy period we will review and advise you of the situation and consider if an alternative carrier can be reasonably provided prior to renewal.

A.M. Best has an extensive database of nearly 6,000 Life/Health, Property Casualty and International companies. You can visit them at www.ambest.com.

Gene Therapy Overview

Gene therapies introduce genetic material into a person's DNA to replace, or inactivate faulty or missing genetic material that leads to disease

Extremely high cost ranging from \$1.5-\$5.0M per single dose treatment Most therapies are for rare diseases so there are not many patients to share the cost to support research, development, cost shifting, and commercialization

If an employer chooses to exclude coverage of gene therapies, this must be discussed and documented with the medical carrier

~4,000 diseases are linked to gene disorders and lack effective treatment

More than 1,500 potential treatments are in research and development Drug manufacturers are banking on the U.S. commercial market to allow for continued study of their therapies. Other countries regulate Rx cost Gene therapies are generally excluded under the PBM plan but are covered under the medical benefit.

Based on unsustainable cost, abbreviated approval by the FDA, and limited efficacy data, employers may want to exclude gene therapies under the medical and pharmacy benefits

Current FDA Approved Gene Therapies

Therapy Name	Disease or Condition	Prevalence	Estimated Cost	Administration and Dosing	Efficacy	Standard of Care
Zolgensma	Spinal muscular atrophy Type 1	450 to 500 infants born per year in the U.S.	\$2.1M	One-time single-dose intravenous (IV) infusion	Decreases symptoms and extends life of affected children, but is not a full cure	Rehabilitation, orthopedic care, nutritional care, pulmonary and acute care, medications, supplements, and immunizations
Luxturna	A rare form of blindness caused by inherited retinal disease	1,000-2,000 patients in the U.S.	\$850k	One-time single injection into the back of each eye that are 6 days apart	Helps to maintain vision in people with this disease	Nutritional supplements and supportive measures to maintain daily living (i.e., low vision rehabilitation, optical and nonoptical corrective interventions, etc.)
Zynteglo	Transfusion-dependent beta- thalassemia	1,000 patients in the U.S.	\$2.8M	One-time single-dose IV infusion Requires bone marrow stem cells from patient	Transfusion independence is the goal; clinical studies to date seem promising	Hematopoietic stem cell transplant or Reblozyl
Skysona	Cerebral Adrenoleuko- dystrophy (CALD)	About 40 cases per year in the U.S.	\$3.0M	One-time single-dose IV infusion Requires patient to undergo hematopoietic stem cell mobilization and apheresis	To be determined; small trial of 67 patients will be studied for 15 more years for continued safety and efficacy monitoring	Stem cell transplant, adrenal insufficiency treatment, medications, physical therapy

Gene Therapy: To Cover or Not to Cover

Cost	 Financial risk is growing and many employers do not have the ability to absorb these costs if a case arises Costs are NOT currently built into client projections unless there is a known risk, as the prevalence rate for these therapies is too low to assume any utilization Financial protection - stop loss or specific gene therapy protection programs (new to market solutions - i.e. Embarc, OptumRx Gene Therapy Risk Protection) should allow for a stop loss premium offset but the benefit of these programs is limited due to exclusion criteria
Administrator Consideration	 Carrier partner medical policies may strongly support coverage of gene therapies Excluded should mean <u>excluded</u> - no matter who is in need or individual circumstances
Employee / Public Relations	 Can an employer "afford" to not cover an FDA approved therapy? Can an employer answer why other high-cost therapies are covered and these are not?
Compliance	 Based on discussions at Alliant, compliance review has determined that excluding gene therapies is not a discrimination issue There is not a mandate to cover these therapies

To Management Village Fire Department Houston, TX

Management is responsible for the accompanying financial statements of Village Fire Department General Fund, Capital Replacement Fund, Facility Fund, and Ambulance Billing Fund, which comprise the statement of assets, liabilities, and fund balance - cash basis as of December 31, 9999, and the related statement of receipts and expenditures - from cash transactions for the one month and eleven months then ended, the changes in fund balance from cash transactions for the eleven months then ended, and for determining that the cash basis of accounting is an acceptable financial reporting framework. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

However, we did become aware of departures from financial statements prepared from cash transactions. The Village Fire Department maintains its accounting records using the modified cash basis method of accounting. Such accounting method differs from U.S. generally accepted accounting principles. Inventory, prepaids, deferred revenue, and payroll payables are currently reported in the financial statements. The effects of these departures from the cash basis of accounting have not been determined.

Management has elected to omit substantially all of the disclosures ordinarily included in financial statements prepared in accordance with the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Department's assets, liabilities, fund balance, receipts, and expenditures. Accordingly, the financial statements are not designed for those who are not informed about such matters.

To Management Village Fire Department Houston, TX

Management is responsible for the accompanying financial statements of Village Fire Department General Fund, Capital Replacement Fund, Facility Fund, and Ambulance Billing Fund, which comprise the statement of assets, liabilities, and fund balance - cash basis as of December 31, 2023, and the related statement of receipts and expenditures - from cash transactions for the one month and twelve months then ended, the changes in fund balance from cash transactions for the twelve months then ended, and for determining that the cash basis of accounting is an acceptable financial reporting framework. We have performed a compilation engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

The financial statements are prepared in accordance with the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

However, we did become aware of departures from financial statements prepared from cash transactions. The Village Fire Department maintains its accounting records using the modified cash basis method of accounting. Such accounting method differs from U.S. generally accepted accounting principles. Inventory, prepaids, deferred revenue, and payroll payables are currently reported in the financial statements. The effects of these departures from the cash basis of accounting have not been determined.

Management has elected to omit substantially all of the disclosures ordinarily included in financial statements prepared in accordance with the cash basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Department's assets, liabilities, fund balance, receipts, and expenditures. Accordingly, the financial statements are not designed for those who are not informed about such matters.

MEETING DATE: February 26, 2024

SUBJECT: Consideration and possible action on the purchase and planned placement of school zone flashing beacons.

Agenda Item: 6

Summary

School zones have reduced speed limits to ensure the safety of children and pedestrians near schools. They are marked with special signs, pavement markings, and traffic calming devices to alert drivers. In Texas, school zone speed limits are usually in effect before and after the school day, with increased fines for speeding. These laws are designed to protect children who are more vulnerable to accidents.

The purpose of school zone flashing beacons is to alert drivers to slow down and watch out for children who are walking to or from school. These lights usually turn on automatically by a timer and operate for one hour before and after school hours when pedestrian traffic is high. The lights are designed to be visible at 200 yards or more and only flash when children are likely to be present. This helps drivers notice the flashing lights and take necessary precautions by slowing down.

This agenda item proposes discussing the purchase and implementation of school zone beacons prior to the opening of Memorial Drive Elementary.

Recommendation

Staff is requesting direction in implementing the school zone flashing beacons at the entrance of the zone on Hedwig and Piney Point roads. Four units are to be installed, with a dedicated beacon for Northbound and Southbound traffic on both roads. Please note that the existing signs within the zone, such as those along Smithdale, will remain without the beacon, as is typical in other school zones. The funding will be sourced from the safety allocations that were set aside from court fines specifically designated for child safety.

Engineer's Status Report City of Piney Point Village HDR Engineering, Inc. City Council Meeting Date: February 26, 2024

Submit to City: February 22, 2024

CURRENT PROJECTS:

1. 96-inch CMP Replacement Project

The Contractor has completed all items on the punch except for the hydro-mulch seeding of the disturbed area. Between retainage and unpaid bid items, the City is holding approximately \$246,000 from AR Turnkee. The Contractor submit a pay estimate this month for payment of outstanding items but it also included a reduction of retainage. The retainage amounts are included in the contract and a reduction would require City Council approval. Per feedback received during the Engineering Meeting, City Council is not willing to entertain a retainage reduction due to the slow response to completing the punch list.

2. Williamsburg/Wendover Drainage Improvements

HDR has received signed copies of all resident cost share agreements and has submit them to the City. HDR is now working with the Contractor to execute all contract documents. A pre-construction meeting and a resident construction informational meeting will be scheduled with the Contractor in the next 2-3 weeks. Once all contract documents are executed, HDR will work with the Contractor to review their schedule and issue a Notice to Proceed. It is anticipated that the Notice to Proceed will be issued in approximately 4 weeks.

3. Green Oaks Drainage

The ditch regrading and culvert cleaning work in front of 11531 and 11527 has been completed. The storm sewer easement installed by Mr. Phan at 11527 has been repair and reset as well.

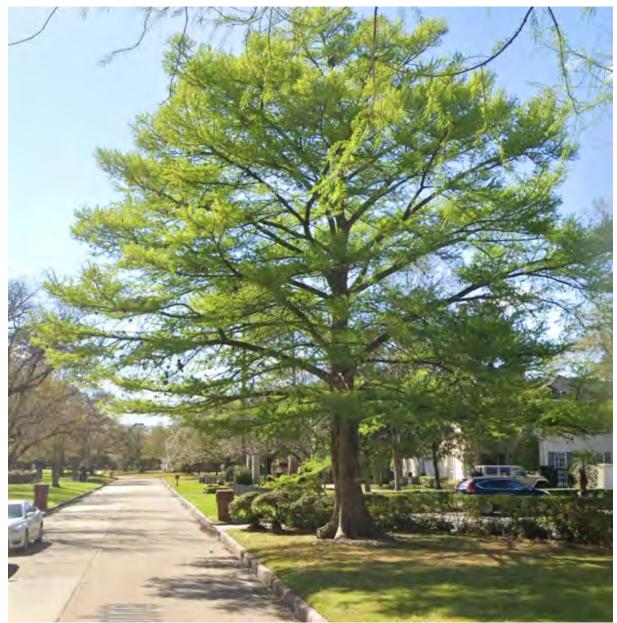

4. South Country Squire

As reported during the February Engineering Meeting, one last additional point repair must be made on the storm sewer pipe. The below photograph shows the root blockage at this location:

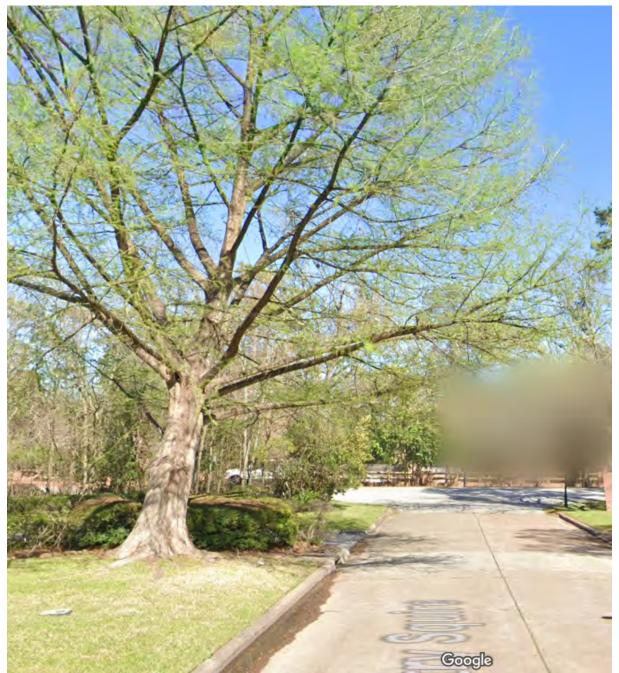

It is located underneath the west driveway of 11010 South Country Squire. An additional cost of \$3,200 to remove and replace the driveway apron was approved by the Mayor. HDR has contacted the resident to notify them of the driveway replacement and to notify the resident that they must coordinate any upgrades such as stamps or stains with the Contractor. HDR has requested that they respond by Friday, February 23rd.

The Mayor requested the total amount of cost associated with either televising the storm sewer line to identify blockages or on point repairs completed to address root blockages in the vicinity of two cypress trees located at 11010 South Country Squire. This total cost is \$64,180. The Mayor would like to have discussion on cypress trees in the City and the future of these two specific cypress trees.

5. Memorial Drive Clean & TV

It was noted by field observation that both North and South Country Squires held approximately 6-inches of water during a rain event on January 26th. Councilman Dodds questioned why the streets were holding that much water. HDR informed him that the storm sewer that drains these two streets on Memorial Drive is undersized and may be the reason for the backup. We also noted that we do not have any TV footage of the storm sewer and it is unknown if there is any other issue, blockage, or deficiency with the pipe that could exacerbate the pipes undersized performance. Councilman Dodds requested that HDR obtain a quote to inspect the storm sewer on the west side of Memorial from South Country Squire north to its outfall in the RCB at Wickline Ravine. This cost of \$7,080 was approved by the Mayor.

Limits of the TV investigation:

The results of the TV investigation show that there is one root blockage:

At the time of this report, it is unknown where the root blockage is in relation to the above exhibit. HDR is coordinating with the Contractor to obtain the location of their inlet numbering system and will provide an update on recommended actions at the Council Meeting.

6. 2023 Paving Improvement Project

At HDR is working completing the design of this project and is currently performing reviews of the projects design. Plans will be sent to the Memorial Villages Water Authority for their review as well. HDR has contact the City to schedule a resident townhall meeting. The intent of this meeting is the inform the residents of the upcoming project and to collect any input prior to advertising the project for bidding. The anticipated project schedule is as follows:

- Design Completion: February 2024
- Resident Townhall Meeting: Week of March 3rd (tentative)
- Request Council approval to Advertise for bidding: March 25th, 2024
- Bid Opening & Award: April/May2024
- Construction Begin: May 2024
- Construction Completion: August 2024

7. COH Windermere Outfall Repair Project

The City of Houston also submit a 100% set of the plans and contract document for HDR to review. HDR returned comments on the 100% set of plans on January 3, 2024 and has not received any further correspondence from the City of Houston.

8. Dana Lane

Uretek has notified that they need to shift their anticipated work at 566 and 582 W. Dana Lane from February 26 & 27 to March 4th and 5th. Residents will be notified of the schedule work and impacts that work may have on their regular traffic patterns.

Councilman Dodds and HDR met with residents on Chuckanut to discuss the opportunity for a resident cost share storm sewer project. Generally there is some interest a project.
