INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and Members of the City Council City of Piney Point Village, Texas:

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the City of Piney Point Village, Texas (the "City"), as of and for the year ended December 31, 2023, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of City of Piney Point Village, Texas, as of December 31, 2023, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Piney Point Village, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The City's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for one year after the date that the financial statements are issued.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is
 expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the
 financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control—related matters that we identified during the audit.

Emphasis of Matter

As discussed in Note V.F. to the financial statements, the beginning net position and fund balance within governmental activities and the general fund were restated due to the correction in accounts receivable. Our opinion is not modified with respect to this matter.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the general fund budgetary comparison information, the schedule of changes in net pension liability and related ratios, the schedule of employer contributions to pension plan, and schedule of changes in the other postemployment benefits liability and related ratios, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated May 23, 2024 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
December 31, 2023

As management of the City of Piney Point Village, Texas (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2023.

Financial Highlights

- The City's total combined net position is \$38,843,668 at December 31, 2023. Of this, \$5,869,091 (unrestricted net position) may be used to meet the City's ongoing obligations to its citizens and creditors.
- At the close of the current fiscal year, the City's governmental funds reported combined fund balances of \$5,928,061, an increase of \$226,715.
- As of the end of the year, the unassigned fund balance of the general fund was \$5,648,962 or 60% of total general fund expenditures.
- The City had an overall increase in net position of \$2,011,136. The majority of the City's net position is invested in capital assets and restricted for specific purposes.

Overview of the Financial Statements

The discussion and analysis provided here are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements consist of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) the notes to financial statements. This report also includes supplementary information intended to furnish additional detail to support the basic financial statements themselves.

Government-Wide Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, liabilities, and deferred inflows/outflows with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Other non-financial factors, such as the City's property tax base and the condition of the City's infrastructure, need to be considered in order to assess the overall health of the City.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued December 31, 2023

are reported for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include general government, public safety, public works, culture and recreation, and community development.

FUND FINANCIAL STATEMENTS

Funds may be considered as operating companies of the parent corporation, which is the City of Piney Point Village. They are usually segregated for specific activities or objectives. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal reporting requirements. The only category of City funds is governmental.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as *on balances of spendable resources* available at the end of the year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Piney Point Village, Texas maintains four individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. Funds consist of major funds general fund and debt service fund as well as nonmajor funds capital projects fund and special revenue fund.

The City adopts an annual appropriated budget for its general fund and debt service fund. A budgetary comparison schedule has been provided to demonstrate compliance with the general fund budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued
December 31, 2023

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes are the last section of the basic financial statements.

Other Information

In addition to the basic financial statements, MD&A, and accompanying notes, this report also presents certain Required Supplementary Information (RSI). The RSI that GASB Statement No. 34 requires includes a budgetary comparison schedule for the general fund and schedule of funding progress for Texas Municipal Retirement System. The RSI can be found after the basic financial statements.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted previously, net position may serve over time as a useful indicator of the City's financial position. For the City, assets exceeded liabilities by \$38,843,668 as of December 31, 2023, in the primary government.

The largest portion of the City's net position, \$32,696,663, reflects its investments in capital assets (e.g., land, infrastructure, and streets), less any debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the assets themselves cannot be used to liquidate these liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued December 31, 2023

Graphic presentations of selected data from the summary tables are displayed below to assist in the analysis of the City's activities.

Governmental Activities - Revenues

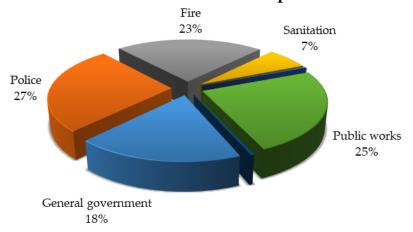

For the year ended December 31, 2023, revenues from governmental activities totaled \$10,479,977. Property tax is the City's largest revenue source at \$7,449,921. Charges for services increased \$200,494 or 20%, which is primarily a result of additional permit fees during the year compared to last. Grants and contributions decreased \$415,874 or 135% due to some nonrecurring contributions received in the previous year from the American Rescue Plan and from Harris County. Property taxes increased by \$452,388 or 6% due to the increase in appraisal values. Sales taxes increased \$83,687 or 20% due to added online sales. In addition, investment income increased \$338,104 or 303% primarily due to higher interest rates caused by changing market conditions and change in interest bearing account balances. Other revenues decreased by \$322,410 or 65% primarily due to nonrecurring reimbursements and recoveries received in the previous current year. All other revenues were relatively consistent with the previous year.

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued
December 31, 2023

This graph shows the governmental function expenses of the City:

Governmental Activities - Expenses

For the year ended December 31, 2023, expenses for governmental activities totaled \$8,468,841. This represents an increase of \$999,083 from the prior year. The City's largest functional expense is police in the amount of \$2,254,593, which increased by \$134,843 or 6% from the previous year. The increase is primarily due to an increase in personnel costs and purchase of needed equipment at the Memorial Village Police Department during the current year. General government expenses increased \$90,281 or 6% primarily due to the a combination of change in city personnel, a rise in professional costs, and non-recurring information and technology services. Fire expenses increased by \$270,307 or 16% primarily due to added personnel costs and related equipment purchases. Municipal court expenses increased \$10,061 or 52% due to additional court dates and higher utilization of judge services during the year. Public works expenses increased by \$499,105 or 31% primarily due to an increase in non-capital related repairs and maintenance costs throughout the City in the current year. Interest and fiscal charges decreased by \$28,936 or 47%, consistent with the debt service terms of preexisting long term debt. All other expenses remained relatively stable when compared to the previous year.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, fund accounting is used to demonstrate and ensure compliance with finance-related legal requirements.

<u>Governmental Funds</u> - The focus of the City's governmental funds is to provide information of near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the City's net resources available for spending at the end of the year.

As of the end of the year the general fund reflected a total unassigned fund balance of \$5,648,962. The general fund increased by \$990,479 primarily due to revenues exceeded the budgeted revenues and capital expenditures staying below budget.

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued December 31, 2023

The debt service fund reflected a total balance of \$197,293, an increase of \$80,298. The change was due to revenues exceeding the cost of service debt.

There was an increase in governmental fund balance of \$226,715 from the prior year. The change is primarily attributable to a conservative budget, as expenditures stayed under budget and revenues exceeding budgeted expectations. The total of all governmental funds reflected a total fund balance of \$5,928,061. Of this, \$80,621 is restricted for municipal court and \$197,293 is restricted for debt service.

GENERAL FUND BUDGETARY HIGHLIGHTS

There was a total positive budget variance of \$2,793,381 in the general fund. This is a combination of a positive revenue variance of \$1,181,496 and a positive expenditures variance of \$764,466. Expenditures exceeded appropriations for general government by \$16,837, fire by \$519, sanitation by \$9,517 and public works by \$95,867.

CAPITAL ASSETS

As of the end of the year, the City's governmental activities funds had invested \$35,591,439 in a variety of capital assets and infrastructure, net of accumulated depreciation. Depreciation is included with the governmental capital assets as required by GASB Statement No. 34.

Major capital asset events during the current year include the additions of construction in progress over road and drainage construction totaling \$1,943,898, \$115,289 in infrastructure, and \$10,749 in equipment. More detailed information about the City's capital assets is presented in note IV. C to the financial statements.

LONG-TERM DEBT

At the end of the current year, the City had total bonds outstanding of \$2,520,000 and lease balance of \$114,2562. During the year, the City made principal payments totaling \$906,386. More detailed information about the City's long-term liabilities is presented in note IV. D. to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

While the City is an entirely residential community, it has continued to maintain new growth as an attractive destination for Houston-based families. The City's appraised values continue to grow and this has allowed the City to retain its 2023 tax rate for 2024.

The City adopted a budget similar to last year's budget for 2024, retaining the same tax rate with no increases. Since the City's largest revenue source is property taxes, it is important to note that the City's collection rate is near 100%. The City's 2024 budget will continue to provide necessary services. Long-

MANAGEMENT'S DISCUSSION AND ANALYSIS, Continued December 31, 2023

term funds, including new debt funds that will be used to continue improving drainage and maintaining streets while holding tax rates level.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's finances. Questions concerning this report or requests for additional financial information should be directed to the City Finance Director, City of Piney Point Village, 7676 Woodway, Suite 300, Houston, Texas 77063.

NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2023

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges to external customers for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

B. Reporting Entity

The City of Piney Point Village, Texas (the "City") was organized in 1954 to provide municipal services such as police; fire; code enforcement; public works; street repair and maintenance; and general administrative services.

The City is an independent political subdivision of the State of Texas governed by an elected five member council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the City's financial reporting entity. No other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and is fiscally independent of other state and local governments. Additionally prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable, and considerations pertaining to organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

Joint Venture

Joint Ventures are legal entities or other organizations that result from a contractual arrangement that are owned, operated, or governed by two or more participants as a separate and specific activity subject to joint control. The participants retain either an ongoing financial interest or an ongoing financial responsibility. The City's two joint ventures are described as follows:

Village Fire Department

Village Fire Department ("VFD") was created in 1978 as part of an agreement between multiple contracting cities joined into an interlocal cooperation agreement to establish a common municipal fire department, chartered as the Village Fire Department. The City does not have an equity interest and has no significant influence over VFD's administration or operation.

Memorial Villages Police Department

The Memorial Villages Police Department ("MVPD") was created in 1977 as part of an agreement between multiple contracting cities joined into an interlocal cooperation agreement to furnish all police services and law enforcement activities to the participating cities. The City does not have an equity interest and has no significant influence over MVPD's administration or operation.

C. Basis of Presentation Government-Wide and Fund Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds. Separate financial statements are provided for governmental funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes where the amounts are reasonably equivalent in value to the interfund services provided and other charges between various other functions of the City. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The fund financial statements provide information about the government's funds. Separate statements for each fund category, governmental are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

The government reports the following governmental funds:

Governmental Funds

Governmental funds are those funds through which most governmental functions are typically financed.

General Fund

The general fund is used to account for all financial transactions not properly includable in other funds. The principal sources of revenues include local property taxes, sales and franchise taxes, licenses and permits, fines and forfeitures, and charges for services. Expenditures include general government, municipal court, public safety, public works, and code enforcement. The general service fund is considered a major fund for reporting purposes.

Debt Service Fund

The debt service fund is used to account for the payment of interest and principal on all general obligation bonds and other long-term debt of governmental funds. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

Capital Projects Funds

The capital project funds are used to account for the expenditures of resources accumulated from general obligation bonds, tax notes, related interest earnings, and other sources for capital improvement projects. The capital projects fund is a nonmajor fund for reporting purposes.

Special Revenue Fund

The special revenue fund is used to account for the proceeds of specific revenue sources (other than expendable trusts and major capital projects) that are legally restricted, committed, or assigned for specified activities. The special revenue fund is a nonmajor fund for reporting purposes.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e.,

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

D. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as *current financial resources* or *economic resources*. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). Expenditure-driven grants are recognized as revenue when the

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year end). All other revenue items are considered to be measurable and available only when cash is received by the government.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position/Fund Balance

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short term investments with original maturities of three months or less from the date of acquisition. For the purpose of the statement of cash flows, the proprietary fund types consider temporary investments with maturity of three months or less when purchased to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Reporting for Certain Investments and External Investment Pools*, the City reports all investments at fair value, except for "money market investments" and "2a7-like pools." Money market investments, which are short-term highly liquid debt instruments that may include U.S. Treasury and agency obligations, are reported at amortized costs. Investment positions in external investment pools that are operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940, such as TexPool, are reported using the pools' share price.

The City has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, of the Texas Governmental Code. In summary, the City is authorized to invest in the following:

Direct obligations of the U.S. Government Fully collateralized certificates of deposit and money market accounts Statewide investment pools

2. Fair Value Measurement

The City has applied Governmental Accounting Standards Board ("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements.

3. Receivables and Interfund Transactions

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as either "interfund receivables/payables"

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

(i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds" in the fund financial statements. If the transactions are between the primary government and its component unit, these receivables and payables are classified as "due to/from component unit/primary government."

Advances between funds are offset by a fund balance reserve account in the applicable governmental fund to indicate they are not available for appropriation and are not expendable available financial resources.

All trade receivables are shown net of any allowance for uncollectible amounts.

4. Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. Penalties are calculated after February 1 up to the date collected by the government at the rate of 6% for the first month and increased 1% per month up to a total of 12%. Interest is calculated after February 1 at the rate of 1% per month up to the date collected by the government. Under state law, property taxes levied on real property constitute a lien on the real property which cannot be forgiven without specific approval of the State Legislature. The lien expires at the end of twenty years. Taxes levied on personal property can be deemed uncollectible by the City.

5. Inventories and Prepaid Items

The costs of governmental fund type inventories are recorded as expenditures when the related liability is incurred (i.e., the purchase method). Certain payments to vendors reflect costs applicable to the future accounting period (prepaid expenditures) are recognized as expenditures when utilized.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the government, as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant, and equipment of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful years.

	Estimated
Asset Description	Useful Life
Furniture and equipment	5 to 10 years
Infrastructure	20 to 65 years

7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/ expenditure) until then. An example is a deferred charge on refunding reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The government has only one type of item, which arises only under a modified accrual basis of accounting, that qualifies for reporting in this category. Accordingly, the item, *unavailable revenue*, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from one source: property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available.

8. Net Position Flow Assumption

Sometimes the government will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the government's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

9. Fund Balance Flow Assumptions

Sometimes the government will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the government's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

10. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The government itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. The governing council is the highest level of decision-making authority for the government that can, by adoption of an ordinance prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the ordinance remains in place until a similar action is taken (the adoption of another ordinance) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The governing body (council) has by resolution authorized the finance director to assign fund balance. The council may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

11. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

12. Other Postemployment Benefits ("OPEB")

The City has implemented GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. This statement applies to the individual employers (TMRS cities) in the TMRS Supplemental Death Benefits (SDB) plan, with retiree coverage. The TMRS SDBF covers both active and retiree benefits with no segregation of assets, and therefore doesn't meet the definition of a trust under GASB No. 75 (i.e., no assets are accumulated for OPEB) as such the SDBF is considered to be an unfunded OPEB plan. For purposes of reporting under GASB 75, the retiree portion of the SDBF is not considered a cost sharing plan and is instead considered a single employer, defined benefit OPEB plan. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary, calculated based on the employee's actual earnings on which TMRS deposits are made, for the 12-month period preceding the month of death. The death benefit amount for retirees is \$7,500. GASB No. 75 requires the liability of employers and nonemployer contributing entities to employees for defined benefit OPEB (net OPEB liability) to be measured as the portion of the present value of projected benefit payments to be provided to current active and inactive employees that is attributed to those employees' past periods of service (total OPEB liability), less the amount of the OPEB plan's fiduciary net position.

13. Compensated Absences

It is the City's policy to permit regular full-time employees to accumulate earned but unused vacation up to a maximum of 20 days. Vacation amounts accumulated may be paid to employees upon termination of employment or at retirement. New employees are ineligible for vacation benefits during the first six months of employment and vacation amounts will not be paid upon separation during this period. The estimated amount of compensation for services provided that is expected to be liquidated with expendable, available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it when it becomes due. Amounts of vested or accumulated vacation leave that are not expected to be liquidated with expendable, available financial resources are maintained separately and represent a reconciling item between the fund and government-wide presentations.

14. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities Statement of

NOTES TO FINANCIAL STATEMENTS, Continued
For the Year Ended December 31, 2023

Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method, if material. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

The property tax rate is allocated each year between the general and debt service funds. The full amount estimated to be required for debt service on general obligation debt is provided by the tax along with the interest earned in the debt service fund.

Assets acquired under the terms of capital leases are recorded as liabilities and capitalized in the government-wide financial statements at the present value of net minimum lease payments at inception of the lease. In the year of acquisition, capital lease transactions are recorded as other financing sources and as capital outlay expenditures in the general fund. Lease payments representing both principal and interest are recorded as expenditures in the general fund upon payment with an appropriate reduction of principal recorded in the government-wide financial statements.

15. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

16. Leases

Lessee: The City is a lessee for a noncancellable lease. The City recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the government-wide financial statements. The City recognizes lease liabilities with an initial, individual value of \$5,000 or more.

At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to leases include how the City determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The City uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the City generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the City is reasonably certain to exercise.

The City monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets and lease liabilities are reported with long-term debt on the statement of net position.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

A. Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.

The governmental fund balance sheet includes reconciliation between *fund balance-total* governmental funds and net position-governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that long-term liabilities, including bonds, are not due and payable in the current period and, therefore, are not reported in the funds.

B. Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances – total governmental funds and changes in net position of governmental states that, "the issuance of long-term debt (e.g., bonds) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Also, governmental funds report the effect of premiums, discounts, and similar items

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities."

III. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Annual budgets are adopted on a basis consistent with generally accepted accounting principles except for the capital projects funds, which appropriated on a project-length basis.

The legal level of control as defined by the City Charter is the function level. No funds can be transferred or added to a budgeted item without Council approval. Appropriations lapse at the end of the year. No supplemental budget appropriations were made during the year. For the year ended December 31, 2023, expenditures exceeded appropriations at the legal level of control within the general fund for general government by \$16,837, fire by \$519, sanitation by \$9,517, and public works \$95,867.

IV. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

As of December 31, 2023, the primary government had the following investments:

Investment Type	Car	rying Value	Weighted Average Maturity (Years)
External investment pools	\$	8,231,834	0.12
Total carrying value	\$	8,231,834	
Portfolio weighted average maturity	-		0.12

Interest rate risk – In accordance with its investment policy, the City manages its exposure to declines in fair values by limiting the weighted average of maturity not to exceed five years; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations; monitoring credit ratings of portfolio position to assure compliance with rating requirements imposed by the Public Funds Investment Act; and invest operating funds primarily in short-term securities or similar government investment pools.

Credit risk – The City's investment policy limits investments to obligations of the United States, State of Texas, or their agencies and instrumentalities with an investment quality rating of not less than "A" or its equivalent, by a nationally recognized investment rating firm. Other obligations must be unconditionally guaranteed (either express or implied) by the full faith and credit of the United States Government or the issuing U.S. agency and investment pools with an investment quality not less than AAA or AAA-m, or equivalent, by at least one nationally recognized rating service.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

Custodial credit risk – deposits: In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require that all deposits in financial institutions be insured or fully collateralized by U.S. government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a market value of not less than the principal amount of the deposits. As of December 31, 2023, the market values of pledged securities and FDIC exceeded bank balances.

Custodial credit risk – investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that it will seek to safekeeping securities at financial institutions, avoiding physical possession. Further, all trades, where applicable, are executed by delivery versus payment to ensure that securities are deposited in the City's safekeeping account prior to the release of funds.

TexPool

TexPool was established as a trust company with the Treasurer of the State of Texas as trustee, segregated from all other trustees, investments, and activities of the trust company. The State Comptroller of Public Accounts exercises oversight responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The advisory board members review the investment policy and management fee structure. Finally, Standard & Poor's rate TexPool "AAAm". As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as the office of the Comptroller of Public Accounts for review.

TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than market value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares. There were no limitations or restrictions on withdrawals.

Texas CLASS

Texas CLASS (Texas Cooperative Liquid Assets Securities System Trust) was established in 1996, and was created as an investment pool for its Participants pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code. According to State Code, entities may pool any of their funds, or funds under their control, in order to preserve principal, to maintain the liquidity of the funds, and to maximize yield. The Texas CLASS Trust Agreement is an agreement of indefinite term regarding the investment, reinvestment

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate in the Trust (the "Participants"), Public Trust Advisors LLC (PTA) as Program Administrator, and Wells Fargo Bank Texas, N.A. as Custodian. Texas CLASS invests only in securities allowed by the Texas Public Funds Investment Act. The pool is governed by a board of trustees, elected annually by its participants. Texas CLASS is rated 'AAAm' by Standard and Poor's Ratings Services. The City's fair value position is stated at the value of the position upon withdrawal. There were no limitations or restrictions on withdrawals.

B. Receivables

The following comprise receivable balances of the primary government at year end:

General		De	bt Service	Total		
\$	4,687,282	\$	599,054	\$	5,286,336	
	98,111		-		98,111	
	54,840		-		54,840	
	107,000		-		107,000	
	2,283		-		2,283	
\$	4,949,516	\$	599,054	\$	5,548,570

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

C. Capital Assets

A summary of changes in governmental activities capital assets for the year end was as follows:

	Beginning				I	Decreases/	Ending			
		Balances	Increases		es Reclassifications			Balances		
Capital assets, not being depreciated:	-									
Construction in progress	\$	958,454	\$	1,943,898	\$	(1,102,442)	\$	1,799,910		
Total capital assets not being depreciated		958,454		1,943,898		(1,102,442)		1,799,910		
Capital assets, being depreciated:										
Infrastructure		43,827,946		115,289		1,102,442		45,045,677		
Equipment		90,374		10,749		-		101,123		
Right of Use Asset		340,337		_				340,337		
Total capital assets being depreciated		44,258,657		126,038		1,102,442		45,487,137		
Less accumulated depreciation										
Infrastructure		10,248,048		1,131,130		-		11,379,178		
Equipment		79,687		3,367		-		83,054		
Right of Use Asset		116,688		116,688		-		233,376		
Total accumulated depreciation		10,444,423		1,251,185		-		11,695,608		
Net capital assets being depreciated		33,814,234		(1,125,147)		1,102,442		33,791,529		
Total Capital Assets	\$	34,772,688	\$	818,751	\$	-	\$	35,591,439		

Depreciation was charged to governmental functions as follows:

General government	\$ 120,055
Public works	 1,131,130
Total Governmental Activities Depreciation Expense	\$ 1,251,185

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

D. Long-term Debt

The following is a summary of changes in the City's total governmental long-term liabilities for the year ended. In general, the City uses the debt service fund to liquidate governmental long-term liabilities.

	I	Beginning Balance	Additions	I	Reductions	Ending Balance	D	Amounts ue within One Year
Governmental Activities:								
Bonds, notes and other payables:								
General Obligation Bonds	\$	3,310,000	\$ -	\$	(790,000)	\$ 2,520,000	\$	820,000
Premium		180,983	-		(54,959)	126,024		-
Lease		230,642	-		(116,386)	114,256		114,256
Total Governmental Activities	\$	3,721,625	\$ -	\$	(961,345)	\$ 2,760,280	\$	934,256
Long-term liabilities due in mor	e tha	n one year				\$ 1,826,024		

Long-term liabilities applicable to the City's governmental activities are not due and payable in the current period and accordingly, are not reported as fund liabilities in the governmental funds. Interest on long-term debt is not accrued in governmental funds, but rather is recognized as an expenditure when due.

Long-term debt at year end was comprised of the following debt issues:

General Obligation Bonds:

\$3,910,000 General Obligation Bond, Series 2015,	
due in installments through 2025, interest of 2-2.5%	\$ 850,000
\$3,735,000 General Obligation Bond, Series 2017,	
due in installments through 2027, interest of 2-4%	1,670,000
Total General Obligation bonds	\$ 2,520,000
Premiums	\$ 126,024
Leases, due in monthly installments through 2024, interest of 5%	114,256
Total Deferred Amounts	\$ 240,280
Total Debt	\$ 2,760,280

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

The annual requirements to amortize debt issues outstanding at year ending were as follows:

Year ending	General Obligation Bonds					
December 31,	Principal Intere					
2024	\$ 820,000	\$	61,050			
2025	840,000		37,325			
2026	425,000		19,425			
2027	435,000		6,525			
Total	\$ 2,520,000	\$	124,325			

General obligation bonds are direct obligations of the City for which its full faith and credit are pledged. Repayment of general obligation bonds are from taxes levied on all taxable property located within the City. The City is not obligated in any manner for special assessment debt.

Year ending		Lease					
December 31,	P	rincipal		Interest			
2024	\$	114,256	\$	2,876			
Total	\$	114,256	\$	2,876			

The City's lease liability is for the use of office space to house City Hall. Lease payments are payable monthly in advance commencing on the commencement date of August 1, 2007 and continuing throughout the term and shall be accompanied by all applicable state and local sales or use taxes. Payments are payable on the first day of each month beginning on the first day of the second full calendar month of the term. The contract expired August 1, 2017 and was renewed to November 30, 2024. The City paid principal of \$116,386 and interest of \$8,889, totaling \$125,275 in lease expenses during the year. The net book value off the leased asset is \$106,961.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

E. Other Long-term Liabilities

The following summarizes the changes in the compensated absences balances of the primary government during the year. In general, the City uses the general fund to liquidate compensated absences.

		eginning Balance	A	dditions	Re	eductions	Ending Balance	Du	mounts e within ne Year
Governmental Activities:									
Compensated absences	\$	27,691	\$	26,813	\$	(29,603)	\$ 24,901	\$	22,411
Total Governmental Activities	\$	27,691	\$	26,813	\$	(29,603)	\$ 24,901	\$	22,411
Other long-term liabilities due in n	nore th	an one yea	r				\$ 2,490		

F. Customer Deposits

The City had customer deposits of \$227,485 in the general fund as of year-end. This consists of the City's required \$25,000 temporary certification of occupancy and \$2,000 gas meter deposit for all new home building permits. This amount will be refunded upon completion of the project and by meeting certain criteria set by the City.

G. Interfund Transactions

The composition of internal balances as of the year ended December 31, 2023 is as follows:

	Due from:			
	Debt			
Due to:	Service	Total		
General Fund	\$ 38,946	\$	38,946	
Total	\$ 38,946	\$	38,946	

Transfers from the capital projects fund to the general fund were for capital project expenditures paid for out of the general fund.

	T	ransfer Out			
		Capital			
Transfer In:		Projects	 Total		
General Fund	\$	847,419	\$ 847,419		
Total	\$	847,419	\$ 847,419		

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

H. Fund Equity

The City records fund balance restrictions on the fund level to indicate that a portion of the fund balance is legally restricted for a specific future use or to indicate that a portion of the fund balance is not available for expenditures.

The following is a list of fund balances restricted/committed by the City:

		Restricted		
		Fur	nd Balance	
Municipal court	*	\$	80,621	
Debt service			197,293	
	Total	\$	277,914	

^{*}Restricted by enabling legislation.

V. OTHER INFORMATION

A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets, errors and omissions; and natural disasters for which the City participates along with over 2,800 other entities in the Texas Municipal League Intergovernmental Risk Pools. The Pool purchases commercial insurance at group rates for participants in the Pool. The City has no additional risk or responsibility to the Pool outside of the payment of insurance premiums. The City has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amounts of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends, including frequency and amount of payouts, and other economic and social factors.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

C. Arbitrage

The Tax Reform Act of 1986 instituted certain arbitrage consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed correctly, a substantial liability to the City could result. The City does anticipate that it will have an arbitrage liability and performs annual calculations to estimate this potential liability. The City will also engage an arbitrage consultant to perform the calculations in accordance with Internal Revenue Service's rules and regulations if indicated.

D. Pension Plans

Texas Municipal Retirement System

1. Plan Description

The City of Piney Point Village, Texas participates as one of 895 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member Board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available annual comprehensive annual financial report that can be obtained at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

2. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payments options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	Plan Year 2022	Plan Year 2021
Employee deposit rate	5%	5%
Matching ratio (city to	2 to 1	2 to 1
employee)		
Years required for	5	5
vesting		
Service retirement		
eligibility		
(expressed as age /	60/5, 0/25	60/5, 0/25
years of		
service)		
Updated service	0% Repeating	0% Repeating
credit	Transfers	Transfers
Annuity increase (to	0% of CPI	0% of CPI
retirees)	0 % 01 CF1	0% OI CF1

Employees covered by benefit terms

At the December 31, 2022 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	9
Inactive employees entitled to but not yet receiving benefits	6
Active employees	<u>5</u>
Total	<u>20</u>

3. Contributions

The contribution rates for employees in TMRS are either 5%, 6%, or 7% of employee gross earnings, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

NOTES TO FINANCIAL STATEMENTS, Continued
For the Year Ended December 31, 2023

Employees for the City of Piney Point Village, Texas were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the City of Piney Point Village, Texas was 6.34% in calendar year 2021. The City's contributions to TMRS for the year ended December 31, 2023, were \$34,216 and were equal to the required contributions.

4. Net Pension Liability (Asset)

The City's Net Pension Liability (Asset) was measured as of December 31, 2022, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability (Asset) was determined by an actuarial valuation as of that date.

Actuarial assumptions

The Total Pension Liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year Overall payroll growth 3.0% per year

Investment Rate of Return 6.75% net of pension plan investment expense, including

inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with the Public Safety table used for males and the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale UMP to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees is used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2014 to December 31, 2018. They were adopted in 2019 and first used in the December 31, 2019 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. In determining their best estimate of a recommended investment return assumption under the various alternative asset allocation portfolios, GRS focused on the area between (1) arithmetic mean (aggressive) without an adjustment for time (conservative) and (2) the geometric mean (conservative) with an adjustment for time (aggressive). The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real
		Rate of Return (Arithmetic)
Global Public Equity	35.0%	7.7%
Core Fixed Income	6.0%	4.9%
Non-Core Fixed Income	20.0%	8.7%
Other Public/Private Markets	12.0%	8.1%
Real Estate	12.0%	5.8%
Hedge Funds	5.0%	6.9%
Private Equity	10.0%	11.8%
Total	100.0%	

Discount Rate

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.75%, as well as what the City's net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

1	% Decrease	Cui	rent Single Rate	1	% Increase
	5.75%	.75% Assumption 6.75%		7.75%	
\$	195,907	\$	87,823	\$	(3,515)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the internet at www.tmrs.com.

5. <u>Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

For the year ended December 31, 2023, the City recognized pension expense of \$70,200.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

At December 31, 2023, the City reported deferred outflows of resources related to pensions from the following sources:

		Outflows of (Inflows		Deferred
				(Inflows) of
				Resources
Difference between projected and actual earnings	\$	61,097	\$	-
Differences between expected and actual economic experience		-		6,285
Contributions subsequent to the measurement date		44,486		-
Total	\$	105,583	\$	6,285

The City reported \$44,486 as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the net pension liability for the year ending December 31, 2024. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended	
December 31:	
2023	\$ (653)
2024	13,541
2025	15,931
2026	25,993
2027	-
Thereafter	-
Total	\$ 54,812

6. Other Postemployment Benefits

The City also participates in a defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB. The SDBF covers both active and retiree benefits with no segregation of assets and, therefore, doesn't meet the definition of a trust under GASB No. 75, paragraph 4b, (i.e., no assets are accumulated for OPEB). As such, the SDBF

NOTES TO FINANCIAL STATEMENTS, Continued
For the Year Ended December 31, 2023

is considered to be a single-employer unfunded OPEB plan (and not a cost sharing plan) with benefit payments treated as being equal to the employer's yearly contributions for retirees.

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

Employees covered by benefit terms

At the December 31, 2022 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	7
Inactive employees entitled to but not yet receiving benefits	1
Active employees	5
Total	13

The City's contributions to the TMRS SDBF for the years ended 2023, 2022, and 2021 were \$817, \$452, and \$201, respectively, which equaled the required contributions each year.

	Annual	Actual	
	Required	Contribution	Percentage of
Plan/	Contribution	Made	ARC
Calendar Year	(Rate)	(Rate)	Contributed
2021	0.10%	0.10%	100.0%

2023	0.17%	0.17%	100.0%

Total OPEB Liability

The City's Postemployment Benefits Other Than Pensions Liability (OPEB) was measured as of December 31, 2022, and the Total OPEB Liability was determined by an actuarial valuation as of that date.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

Actuarial assumptions:

The Total OPEB Liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.5% per year

Overall payroll growth 3.5% to 11.5%, including inflation per year

Discount rate 4.05% Retirees' share of benefit-related costs \$0

Administrative expenses All administrative expenses are paid through the

Pension Trust and accounted for under reporting

requirements under GASB Statement No. 68

Mortality rates for active members, retirees, and beneficiaries were based on the 2019 Municipal Retirees of Texas Mortality Tables with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by Scale UMP to account for future mortality improvements subject to the floor.

Discount Rate:

The discount rate used to measure the Total OPEB Liability was 4.05%. The discount rate was based on the Fidelity Index's "20-Year Municipal GO AA Index" rate as of December 31, 2022.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the total OPEB liability of the City, calculated using the discount rate of 4.05%, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.05%) or 1-percentage-point higher (5.05%) than the current rate:

1% Decrease		Current Single Rate		1% Increase		
3.05%		Assumption 4.05%		5.05%		
\$	38,263	\$	32,280	\$	27,532	

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

Changes in the Total OPEB Liability:

	Total OPEB		
	Liability		
Balance at 12/31/2021	\$	42,100	
Changes for the year:			
Service Cost		2,483

Balance at 12/31/2022	\$	32,280	

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2023, the City recognized OPEB expense of \$414.

At December 31, 2023, the City reported deferred outflows of resources and deferred inflows of resources related to the OPEB liability from the following sources:

	red Outflows Resources	red (Inflows) Resources
Difference between expected and	 	
actual experience	\$ 2,962	\$ -
Change in assumption	-	10,345
Contributions subsequent to		
measurement date	 818	 -
Total	\$ 3,780	\$ 10,345

The City reported \$818 as deferred outflows of resources related to OPEB resulting from contributions subsequent to the measurement date that will be recognized as a reduction of the OPEB liability for the year ending December 31, 2024.

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

Other amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31:

E. Related Organizations and Joint Ventures

The City has entered into an interlocal agreement with the cities of Hunters Creek Village, Hedwig Village, Hilshire Village, Bunker Hill Village, and Spring Valley Village to create the Village Fire Department (VFD). The agreement automatically renews for a period of five years unless terminated by at least one of the contracting cities. Under the terms of the agreement, the City is liable for 21 percent of VFD's budget. For the year ended December 31, 2023, the City paid \$1,969,287 to the VFD.

Consolidated financial information of the VFD extracted from the audited financial statements for the year ended December 31, 2023, on which VFD's auditors expressed an unmodified opinion, are as follows:

	N	et Position
Total assets	\$	8,418,246
Total deferred outflows of resources		1,926,811
Total liabilities		2,503,154
Total deferred inflows of resources		309,200

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

The City has also entered into an interlocal agreement with the cities of Bunker Hill Village and Hunters Creek Village to create the Memorial Village Police Department (MVPD). Under the terms of the agreement, the City is liable for 33 1/3 percent of MVPD's budget. Separate financial statements may be obtained directly from MVPD. For the year ended December 31, 2023 the City paid \$2,254,593 to the MVPD.

Consolidated financial information of the MVPD extracted from the MVPD's audited financial statements for the year ended December 31, 2023, on which the MVPD's auditors expressed an unmodified opinion, are as follows:

	N	et Position
Total assets	\$	1,737,592
Total deferred outflows of resources		1,393,928
Total liabilities		4,191,998
Total deferred inflows of resources		157,869

Ending Net Position	\$	(1,218,347)

F. Restatement

Due to corrections to sales tax receivables in the prior year, the City restated its beginning net position/fund balance within governmental activities and general fund. The restatement of beginning fund balance/net position is as follows:

	G	overnmental	General
		Activities	 Fund
Prior year ending net position		_	_
fund balance as reported	\$	36,761,628	\$ 4,588,764
Correct sales tax receivable		70,904	70,904
Restated beginning net position/fund balance	\$	36,832,532	\$ 4,659,668

NOTES TO FINANCIAL STATEMENTS, Continued For the Year Ended December 31, 2023

G. Subsequent Events

There are no material subsequent events through May 23, 2024, the date the financial statements were issued.
